DIGESTIVE FLUID, OR, GASTRIC JUICE.

epered from RESNET, or the fourth STOMACH OF

Prepared from Renney, or the fourth Stonage of the Cr., after directions of Baron Lieung, the great Physiological chemist, by J.S. Houdards M. D. Philad Iphis, Pennsylvania

This is a truly wonderful remedy for Indigestion. Dyspessis, Juandice, liver complaint, constipation, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

[PHalf a tesspoonful of Persun, Infused in water, will digest or dissolve, Five Pounds of Roost Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digesting Principle of the Gayric Julice—the solvent of the Food, the Purifying, Preserving, and stimulating Agent of the stomach and Intestines. It is extracted from the digestive stomach of the Ox, thus forming an Artificial Digestive Fluid, precisel, like the natural Gastric Julice in its chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of indigestion and dyspopsia are removed just as they would be by a healthy stomach. It is doing wonders for Dyspepties, curing cases of Debility, emaciation, nervous pepties, curing cases of Debility, emaciation, nervous other patterns, all of decline and dyspeptic consumption, supposed to be entrial and warranted, the verge of the grave. The Scientific evidence upon which it is based, is in the highest degree curious and

remarkable.

SCIENTIFIC EVIDENCE! BARON I IEBIG in his colebrated work on Animal chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily propared from the mucous membrane of the stomach of the Calf, in which various articles of food as meat and eggs, will be softened, charged and digested just in the same manner as they would be in the human atomach."

Dr COMBE, in his valuable writings on the "Physicalogy of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distin mished professor of medicine in London, who was severely afficied with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."
